We are amongst the **leading export houses** of choice for discerning buyers of quality products from India who have placed their firm **trust in us since 1927**.

Soex India, a company of Fazlani Group has been at the heart of everyone's lives **since 2002**, with a **global presence across 75 countries**, a customer base that spans hundreds of leading importers and our belief adhering to strong business ethics.

With an excellent manpower, aided by 4 factories and modern logistics, we enjoy a 360 degree scale of operation. With the state-of-art plants in Gujarat with the capacity of 25,000 tons of tobacco annually and the facilities spread over one million sq.ft, we are well equipped to handle sorting, curing, cleansing and packaging several metric tons of production per day. We are able to ship orders of any scale in an average 15 days period. Our dedication in crop development, procurement and productivity has provided consistently high quality tobacco for our international customers.

Our advanced machinery and agricultural experts have perpetually proved us to be the pioneer of evolution in the tobacco industry. We were the first in the industry to experiment with the 'Complete Re-drying Plant', a fully automated processing and packaging line in the West of India. Along with the power packed modern logistics, we proudly retain the old school handpicking method for maintaining the ultimate consistent aroma & taste to the fine tobacco connoisseurs.

We certainly have the profound knowledge of growing tobacco and we ensure optimum utilization of the available high -tech facilities coupled with traditional techniques to perform consistently and sustain as the most reliable brand.
